What is Summer Ag?

The purpose of the Summer Agriculture is to maintain contact with you, the student, during the summer and to provide you opportunities and guidance to work on and improve your SAE (agricultural project). Summer Ag is for all students enrolled in an agriculture class for the upcoming school year. Other students are welcome to come to activities, but will not be able to earn Summer Ag credit.

How do I earn school credit that goes towards graduation for Summer Ag?

In order to get your credit for being in Summer Ag Miss Baadsgaard needs to see you at least twice throughout the course of the summer at your SAE and you need to maintain a record of the work you do in your SAE (hours worked, activities completed, money spent/earned). We also hope that you have the chance to come on one of our field trips and FFA activities as well!

When will you come see my SAE?

Miss Baadsgaard will call you or text you to schedule a time to come visit your project, or if she's in the area she may just stop by for a quick visit. If you are doing something with your SAE that you'd like Miss Baadsgaard to see or help you with, please feel free to contact her and schedule a time to come see you!

Ongoing Events:

- Record Book Day – Every Friday from 10 am – 1 pm. (Unless another event is scheduled)
- SAE Visits – We may stop by your house or SAE on Tuesdays or Thursdays unless other events are scheduled.
